

Please let us (deaf, hearing-impaired,hard-of-hearing) be heard! of our valuable needs which we would appreciate plenty of VRS. It's really no fun nor healthy for us to live with such frustration when we have (emphasis! - have to bear! - NO WAY) to wait for the turn to get hold of VRS. Please - FEEL our feelings! and hear out our feelings. You, any of you who can hear, have rights to just pick up the cell phone or other kinds of phones any time at once at your own preferences (without feeling any anxiety) without waiting for more than a second - even don't need to develop anxiety! So please do let us have plenty of VRS which is really beautiful best answeres. MUCH APPRECIATION FOR YOUR LISTENING OUR NEEDS.
